

8th Grade Science Agenda- Mrs. Sharon

Week of April 17, 2017

Day	In Class Learning Targets	Homework
Monday 4-17	Block (3, 7) Focus Question: Do heavier objects fall faster? Check: Friction Lab and Friction HW 1. Falling Objects Lab 2. Kahoot Quiz Review 3. Review Vocabulary 4. Weekly Reflection	Study Vocab and Guided Notes for: Force, Friction & Gravity Quiz Wed/Thurs 4-19/4-20
Tuesday 4-18	Block (4, 6) See Monday	
Wednesday 4-19	Block (3, 7) Focus Questions: How do forces affect the motion of an object? What is currently happening in the world of science? Check: Falling Objects Lab 1. Science of Imagineering Movie: Gravity 2. Forces, Friction and Gravity Quiz 3. Science News https://www.sciencenewsforstudents.org/	Finish any work not completed in class.
Thursday 4-20	Block (4, 6) See Wednesday	
Friday 4-21	See All Classes/Early Release Focus Questions: What is currently happening in the world of science? 1. Correct Quiz 2. Pass Back Papers 3. Solar Science News	Enjoy your weekend!

Reflections: Please mark an X along the line to indicate your level of understanding.

MS-PS2-2

I can describe a situation where friction is reduced in order to make a task less difficult and explain the types of friction involved before and after.

I cannot YET

I think I can...

I know I can!

Evidence:

MS-PS2-4

I can describe a situation where two objects fall at different rates and explain how both gravity and air resistance affect the objects during their fall.

I cannot YET

I think I can...

I know I can!

Evidence:

MS-PS2-4

I can describe how to change the situation described above so that the objects would fall at the same rate.

I cannot YET

I think I can...

I know I can!

Evidence:
